A New Granite Center in Colorado.

The development of a new granite center in Colorado is promised. Messrs. Yunker & Callahan, of Grand Junction, have opened a quarry six miles from that city near Northborough canyon. The deposit of granite which is said to be of great extent, was discovered by Mr. Callahan about a year ago, and with his partner he has spent about \$5,000 in development of the property. Derricks have been erected and a small force of men have been at work for several months getting out stone. The granite comes in two colors. A coarse dark red of brilliant coloring and capable of taking a perfect polish is apparently the largest in quantity, while a black granite is found in smaller supply. The owners are contemplating the installation of an electric tramway to the quarry. At the present time teams are used to transport the rough blocks to the cutting works in Grand Junction. WOULD ACCEPT BULL MOOSE AID

But Chas. A. Prouty Makes It Plain He Would Not Solicit Such Aid

HE WOULD ESTEEM IT MARK OF CONFIDENCE

Writes to Chas. H. Thompson in Response to Urgent Interrogation

Editor, Barre Times:—This office, at the request of the state committee of the Progressive party, has kept in as close touch as was possible with the Hon. Charles A. Prouty since last June for the sole purpose of ascertaining whether Mr. Prouty would allow his name to be presented in our party primaries as a candidate for nomination on a straight Progressive party ticket for the office of United States senator from Vermont.

This office has consistently and strictly adhered to the view that such consent was a necessary prerequisite to support for Mr. Prouty by members of the Progressive party.

We are now able to announce that he has given that consent, as is indicated by a letter from him to this office, a copy of which follows:

"March 28, 1914.
"Mr. Charles H. Thompson,
"Montpelier, Vermont.

"Dear Mr. Thompson:

"When in the West last week I received a telegram from you asking whether I would consent to my name appearing upon the Progressive party ticket. I replied that I knew nothing as to political happenings in Vermont and disliked to speak without further information.

"Upon returning to Washington this morning I find your letter of March 25 proposing the same question and urging an immediate reply. I am still entirely ignorant of what is taking place in a political way in our state, but upon reflection do not see that such information is necessary to an answer.

"I know of no reason why, if the Progressive party of Vermont without solicitation on my part sees fit to support me for United States senator, I should object. Indeed, such action would be a mark of confidence upon the part of the men who make up and control that party which I should most highly appreciate.

"Very truly yours,
"C. A. Prouty."

The whole matter is now in the hands of the members of the Progressive party. Mr. Prouty has consented to the use of his name in the party primaries as a candidate for a straight Progressive party nomination. The party itself must determine whether it will nominate him or not.

C. H. Thompson.

Hospital for Addison County.

Barre has succeeded in raising a fund of \$60,000 for a hospital. The campaign was of the whirlwind order, covering ten days, into which a lot of hard work was crowded. For the size of the town, none could have done better, and the result shows that these things can be accomplished as well in Vermont as elsewhere. Just get together and push. By the way, what has become of the plan to establish a hospital in Middlebury—An Addison County institution. It ought not to be allowed to fail. Why not start a campaign now?—Vergennes Enterprise.

WILL SELL AT \$95 A SHARE

Boston & Maine Will Dispose of the Maine Central Stock at That Price

WILL GIVE ROAD \$3,000,000 ON MAY 1

The Purchasers Will Be the Maine Railway Companies

Boston, March 31.—Despite the protests of a small but aggressive minority of stockholders the Boston & Maine stockholders yesterday voted to sell at \$90 a share the 159,691 shares of Maine Central owned by the B. & M.

The purchasers will be Maine railway companies composed of interests identified with the Maine Central who will meet to-day to consider the matter.

The proposition provides for the disposal of the Maine Central holdings at \$95 a share on terms by which the Boston & Maine will receive \$3,000,000 in cash on or before May 1 and the remainder in five year five per cent. notes, the buyer being the Maine Railways companies, a voluntary Maine association.

A majority of the stock of the Boston & Maine is held by the Boston Holding company, financed and controlled by the New York, New Haven & Hartford railroad.

President McDonald presided at yesterday's meeting and Chairman Howard Elliott of the New Haven was present.

When the meeting opened Gen. Frank S. Streeter of Concord, N. H., immediately protested against the transaction. He said that the Maine Central stock was the most valuable and available of the Boston & Maine assets and that \$95 a share was much less than the actual value of the Maine Central. He said that there was no necessity for the sale, while there was danger that the proceeds would not be used for the best interests of the Boston & Maine.

In reply to an inquiry by a stockholder, President McDonald said that the greater portion of the Maine Central stock was acquired at par in connection with the consolidation of the Eastern railroad in 1900.

A motion to refer the proposed sale to a stockholders' committee of seven, headed by John Lowell of Boston, was defeated by a vote of 2,038 to 331,092, the holding company's stock being recorded in the negative.

To further inquiries as to what the Boston & Maine proposed to do with the money, President McDonald replied that "no definite decision has been reached on that point, but there seem to be plenty of ways to use it."

The sale was authorized by a vote of 222,675 to 362.

COURT BARS CITY LOAN.

Philadelphia \$5,600,000 Issue Voted for in November Election Held Illegal.

Philadelphia, March 31.—The state supreme court yesterday handed down a decision declaring unconstitutional and illegal the \$5,600,000 municipal loan voted for by Philadelphia at the November election. The decree also declares illegal and unconstitutional the \$12,900,000 loan to be voted for in the special election to the city and county held on an election for that purpose. The result will probably be a postponement of the Art museum, the subway and other improvements to a period beyond the Blankenburg administration.

BEGIN ON LINCOLN MEMORIAL.

Large Force Excavating for Foundation for \$2,000,000 Structure.

Washington, March 31.—Actual work of constructing the great white marble national memorial to Abraham Lincoln was begun here yesterday. In Potomac park, the site of the proposed memorial, a large force of workmen began excavating for the foundation of the structure. The memorial is to cost \$2,000,000.

CONSTIPATION IS DANGEROUS

Pinklets, the New Laxative, Really Do Correct It.

The sufferer from constipation is distressed after eating, gas forms on the stomach, the abdomen has a feeling of pressure and weight and is hard and distended.

The blood soon absorbs poisons that should have been expelled and loss of flesh shows that the body is being poorly nourished. Headaches become frequent, the patient is drowsy, irritable and sometimes faint.

Pinklets, the new laxative pills, do not wear out their effect before accomplishing their work of correcting constipation, because they do not stimulate the bowels to over-exertion. They assist nature so gently that the action is regular and thorough, yet without griping. Pinklets put the liver, stomach and bowels in harmonious, perfect working order.

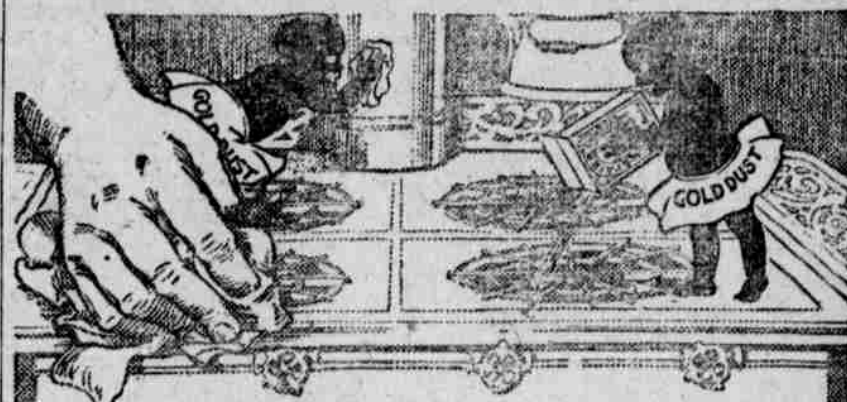

A short trial of Pinklets will convince you that they are the ideal laxative. Every drugstore can now supply you with Pinklets at 25 cents per bottle. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for a Pinklet book telling all about the treatment of constipation.

WILSONS RE-LEASE HOME AT CORNISH

President Wilson Expects to Go There for Rest as Soon as Congress Adjourns.

Washington, March 31.—Cornish, N. H., again will be the location of the "summer White House" this year. President Wilson has re-released the house he occupied there last year and expects to go there for a rest as soon as Congress adjourns.

There have been rumors that Mr. Wilson would go to Williamstown, Mass., where resides his daughter, Mrs. Francis B. Sayre, but these met denial at the White House. Mr. Wilson regards Cornish as an ideal place to rest. He feels greatly in need of a relief from the strain of the last few months and is desirous that Congress get through its work early in the summer. He realizes, however, that the chance that he will be able to get away before the first or middle of August is remote.

MONTPELIER

Board of Health Appeals from Decision of Health Officer.

A special meeting of the board of health was held last evening to protest against the decision of Health Officer Dr. William Lindsay in refusing to grant permission to George Peck to build a lavatory closet in the basement of the Barrows & Peck building, for the use of the employees of the A. H. Temple Co. and George O. Boyles, who are soon to occupy the street floor. Dr. Lindsay refused permission because he alleged it to be against the law to build a lavatory in the basement of any building, there being no way to admit light and ventilation. Mr. Temple asserted it was a question of having it there or not at all, and after talking the matter over a committee of three was appointed to investigate and report before a special meeting of the council. Licenses to sell milk were granted to 20 applicants and the receipts, \$32, were turned over to Dr. Lindsay as compensation for his inspection of dairies and barns.

AMUSEMENT NOTES.

Wednesday Night, "Mrs. Wiggs of the Cabbage Patch."

J. M. Barrie, England's greatest novelist and playwright, was the man who first saw in "Mrs. Wiggs of the Cabbage Patch" and "Lovey Mary" a dramatic mine. One day while the guest of George C. Tyler, managing director of Liebler and Co., at the celebrated Savage club in London, Barrie suggested the dramatization of the novels and, in fact, urged it as he was certain they embodied an enduring play of the widest possible appeal. Mr. Tyler had not read the books but procured them at once and at the first glance he saw the truth of the Barrie belief in their dramatic richness. He entered into negotiation with the author and publisher and by cable, and on his return to America found the manuscript of a play awaiting him. He cast and staged the production himself and the result has been an artistic and financial triumph for three seasons with the company booked for years ahead. The play is now being presented with great success in England and Australia and will be seen at the Barre opera house, Wednesday, April 1, matinee and night, under the direction of the United Play company.—Advt.
